Release notes – April_ R2020-06
16th April 2020

- IMDEXHUB-IQ: Improve processing of tool data for EZGYRO and SPRINT-IQ data, so that email notifications are sent post processing tool sync.
- IMDEXHUB-IQ: Improve TN14 reassign screen with the ability to reassign individually, rather than grouped in a survey run.

Please Note: Clients are advised to use the Integration API for all tool integrations.
