Release notes – March_ R2020-04
17th March 2020

- IMDEXHUB-IQ: Improve Sprint IQ Survey Runs so that start and end depths show correctly in approvals screen
- IMDEXHUB-IQ: Corrected approving multiple EZ-TRAC surveys, as they may not (re)calculate XYZ and DLS
- IMDEXHUB-IQ: Improved local variables to show the data in the plots if any point has in, or any point has out data on plot
- IMDEXHUB-IQ: Corrected Exporting Excel/CSV to send email to user with the data on Reassign Screen
- IMDEXHUB-IQ: Improve Survey API includes EzGyroSurveys with SurveyType Raw

Please Note: Clients are advised to use the Integration API for all tool integrations.
